

RFP 2019 – 107 WIRELESS EQUIPMENT

QUESTIONS:

1. How will Access Points be distributed among the locations listed?
 1. 15 access points at Visions in Education Main office.
 2. 1-5 access points per annex site depending on time of year.
2. Will all locations have Internet access to support cloud based management of access points?
 1. Yes.
3. Would you be interested in a Wi-fi as a Service model reducing CapEx spend and using a monthly fee for the service?
 1. No.
4. Has a heat map been provided to understand the Wi-Fi Coverage requirements?
 1. No.
5. How will the Wireless AP's be powered? If via a POE switches have adequate distance parameters been engineered into the solution for the various sites?
 1. At Visions In Education Main Office, access points will be connected to existing HP 5412R and HP 5406R POE switches.
 2. At annexes sites, access Points will be connected to high powered Mifi routers like a Cradlepoint device which does not provide POE power. Access points will need direct power or POE injector.
6. Will POE switches need to be quoted?
 1. No.
7. Are there any specific requirements for the POE switches to be included as part of the requested proposal?
 1. N/A, POE switches not needed.
8. Has CAT5 or CAT6 cabling been provisioned to the required AP sites?
 1. Yes.
9. Does cabling need to be quoted?
 1. No.
10. Is access to the sites available for a site survey?
 1. A site survey is not required by Visions In Education.
