At Visions In Education **we know**
that every **student's** learning
style is different.

We provide students with **FREE, flexible** and **personalized education options** to help them both academically and personally. Our school is **accredited, results-driven** and **technology enabled**. Whether enrolled in home school, independent study or university prep we give our students **a variety of learning and social opportunities** including field trips, enrichment activities, dances, group lessons and much more.

Visions prepares each unique student to succeed in a rapidly changing world and we believe nothing should get in the way of a **high quality education**. Are you or your student ready to start your **personalized learning** program? If you're thinking "yes!" give us a call or apply online.

Our learning community serves thousands of students from transitional kindergarten through 12th grade in nine counties including Sacramento, Amador, Contra Costa, El Dorado, Placer, San Joaquin, Solano, Sutter and Yolo. We serve students from every academic and cultural background who are pursuing many different goals.

Did You Know?

Visions In Education is a free public charter school. Charter schools provide more choice and educational flexibility for students and families while still being held accountable.

The **Visions** Advantage

Each of our three academies offer the **best educational tools and opportunities for free** to our students and parent educators. The Visions Advantage focuses on four major areas:

Personalized and Flexible Learning Options

Our flexibility allows students to learn in a safe environment that works with their schedules. Our students choose when to study and we provide you with the materials and personalized services you need to succeed.

Service Oriented

Our students develop one-on-one relationships with their credentialed teacher. Unlike many public and other charter schools, our dedicated teachers come to you and we offer a team of counselors and tutors.

Technology Enabled

We use technology to enhance learning and streamline our services. Almost every part of our personalized education programs are fueled by technology. Complete your curriculum ordering online, meet with your teacher via Google Hangouts and read the latest Visions news on the Wire, our password protected website just for students and families.

Socialization

All of our students still enjoy the social aspect of school. We offer many free activities and events like dances, small group meetups, field trips, enrichment activities, college tours and every other social event offered at traditional public schools. Check out our social media accounts to see photos and learn about upcoming opportunities. We leverage social media to allow our learning community to connect on and offline.

Our Academies

Home School Academy

This academy is available to transitional kindergarten through 12th grade students. **Parents/guardians are directly responsible for teaching** with the support of a credentialed teacher. We offer **parental choice** for families that are looking for **individualized learning** and **maximum control** of their student's education. Students are encouraged to take advantage of our various curriculum options, **events**, our resource center, electives, **community college classes**, tutors and **counselors** to enhance their personalized education.

- TK-8 home school students receive a budget of **\$2,700**.
- 9-12 home school students receive a budget of **\$2,900**.
- Family budgets allow you to move money between students with no limits

Independent Study Academy

This academy is available to students in grades 9 through 12 looking for a **flexible education** option. Many of our students found that the traditional school model was not a good fit for them. Our program offers a **safe and flexible learning environment** so you can **catch up on credits**, start attending **community college**, prepare to enter the 21st century **workforce** and **earn your diploma** without the drama.

- We offer a program with **American River College's Automotive Department** that allows students to earn high school and college credit while learning the automotive trade.

University Prep Academy

This academy is available to students in grades 9 through 12 looking for a personalized learning option to help them **prepare for college or university**. Our curriculum **meets A-G requirements** and includes **group projects, electives** and in-person activities.

- Students can join our **mentorship program** through **UC Davis** that helps them prepare for college.

"Thank you for giving my son the confidence and encouragement to know he can overcome and surpass anything." -*Visions Parent*
