

Succeed with Home School

100% Free Public School

Parental Choice With Our Support

Visions has been providing distance learning for over 20 years. At Visions we empower our parents to be teachers. We provide the budget, resources and credentialed teacher to help you succeed. Students in grades TK-8 are provided **\$2,700** and 9-12 students receive **\$2,900**.

Free Resources to Support You

Our Home School families receive tons of free support. Our teachers come to you and help you take advantage of our flexible program, enrichment services, online ordering system and more.

The Visions Difference

We're a Public School with Perks!

Our families enjoy a variety of extra benefits that aren't available at other schools. Our Home School Academy offers families maximum flexibility in their education.

Generous Budgets

TK-8: \$2,700
9-12: \$2,900

Hundreds of Local Enrichment Activities

24/7 Online Ordering System

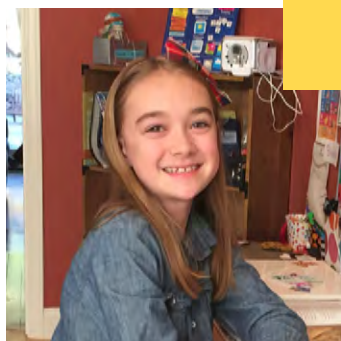

Simple, easy and fast

- ★ 1,000+ vendors including Amazon, Rainbow Resource Center, Lakeshore Learning and BookShark
- ★ Free events and activities including festivals, book fairs, prom and more
- ★ Family Budgets - move funds between students
- ★ Counselor support and free online and face-to-face tutoring
- ★ Free community college opportunities
- ★ Private, location-based Facebook groups to help you connect with other families
- ★ Fully accredited by the Western Association of Schools and Colleges

Student Success Stories

Read about our students and how Visions helped them succeed:

CLARA

Clara has been with Visions since Kindergarten and has taken full advantage of the balance and flexibility homeschooling provides by developing her interests and talents. Using her love for music and math she won an award for her Fibonacci Sequence project.

XAVIER

Xavier has a passion for computer coding. Our Home School academy gave him the flexibility and the budget to participate in coding classes and competitions. He won third place in a “hackathon” for his game, Shark Defense!

CHRIS

Chris wanted the freedom to manage his own schedule and the ability to focus on learning subjects that interested him. Chris graduated in 2010 and is now earning his Ph.D while working with the Naval Research Laboratory on robot teams and GPS programming!
