

Succeed with Independent Study

Finish High School Online

Graduate High School From Home

Visions has been providing distance learning for 25 years. Students can focus on their goals while completing classes online. We offer flexibility so students can earn their high school diploma from the safety of home while still being able to work and pursue their interests.

100% Free Public School

Our students receive tons of free support. Our teachers meet with students virtually or in their community and school work is completed in our online learning system. We offer counselor support, small group meetings, events, student clubs, community college classes, career pathways, and much more to help our students prepare for the future.

Student Success Stories

Thousands of students have graduated from our online Independent Study program. Learn how Visions helped them succeed:

THE PERFECT FIT

To be an Independent Study student and manage my own schedule allows me to explore my opportunities and interests deeper, and I can make important decisions. I attended all four years of high school at Visions and have not felt as if I 'missed' out on [the typical] school [experience] as some may think.

Taiba, '22

PERSONALIZED LEARNING

The caringness that they have is one of the reasons I appreciate them, the willingness to learn how I function, it's uplifting. If you are considering Visions, I think it's best to ask your child if they would work in a better environment on their own or one-on-one with their teacher. If they say yes, go right ahead because honestly it's a very good choice.

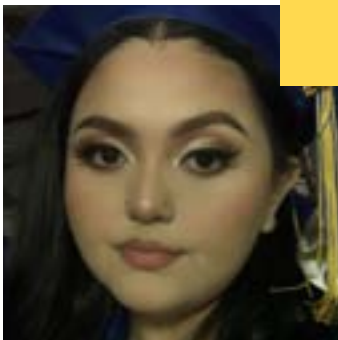

Lenny, '23

SAFETY TO LEARN

I decided to join because I no longer felt safe with [traditional] public schools and I wasn't in the best mental place. [Visions] helped me get a head start into college and even working. I was able to work good hours and balance school credit with Visions ... it felt nice to not be judged for once."
