years of serving students as  
accredited WASC School

**24/7**

access to the most up-to-date  
educational technology

**1:1**

relationship with credentialed  
teachers for personalized support

## Flexible Education Options

Visions has been providing distance learning for 25+ years in the Greater Sacramento region. Our programs allow students to learn from home. Visions provides the tools and teachers support so students can focus on their academic and personal goals.

## Public School At Home

Visions is fully accredited by the Western Association of Schools and Colleges. Our students and families enjoy a variety of extra benefits that aren't available at traditional public schools.

## Support Services

Learning at home doesn't mean missing out on dances, clubs, in-person events, field trips or community college. At Visions, the extra flexibility in your schedule gives you more time to expand your education!

# What Could Learning Look Like?

## Independent Study

GRADES: 9-12

Students receive a free Chromebook to complete their work online and virtually meet with their teacher. This flexible program allows students to work, catch up on credits and earn their diploma safely from home. Students receive a budget of \$1,500 for activities, projects and community college materials. This program offers students maximum flexibility and support in their education.

## University Prep Early College

GRADES: 9-12

This academy focuses on A-G honors classes to prepare students for college or university. We offer three distinct pathways, Associate Degree (AA Degree), certificates, and A-G completion, through our Early College program which combines high school courses with college courses. Students meet with their teacher one-on-one and in small groups with other students. A free Chromebook is provided so students can complete their courses online from home. Students receive a budget of \$1,500 for activities, projects and community college materials.

## Home School

GRADES: TK-8

Teachers partner with parents to provide an excellent home school education. Students in grades TK-8 are provided \$3,000. This instructional resources budget is used for approved curriculum, enrichment activities and materials so families can customize their child's education. Parent partners provide four to six hours of daily instruction and receive support from a credentialed teacher.

## Online Middle School

GRADES: 7&8

Students are provided a free Chromebook and core classes are taught live online by credentialed teachers. This academy includes an organized daily schedule to keep students on track and regular updates are provided to parents/guardians. Students receive a budget of \$1,500 for activities and extracurriculars. This program is different from our Home School Academy as the parent/guardian is not responsible for daily instruction as it is provided by Visions teachers.

# Success Stories

Laurie, Visions Parent

## Take A Chance

"If your child is not succeeding in a traditional environment, be willing to take a chance, because continuing year after year with a child being unsuccessful is really detrimental. Be willing to take a chance, I'm really glad that I did."

Jesus, '24

## Catch Up On Credits

"With traditional school I felt restricted in what I could do. Visions seemed to respect me as an individual ... With Visions, my time wasn't wasted. I was able to add classes and attend summer school to fix my credits. There would be no way in a traditional setting that I could have done what I did at Visions."

Korvus, '24

## Safety To Learn

"We put in an application at Visions and I've never felt such a stark transformation in my life. Finally I had teachers that were there to listen and help. I soared academically because people were teaching me in the unique way that I learned. I was able to show everyone that I was a good student, I was intelligent and I was able to learn with a developmental disability."

Taylerann, student & Bernadette, guardian educator

## Personalized Learning

"We chose home schooling to be able to best support our childrens' individual educational needs and to be able to learn as a family. I was mostly excited for the opportunity to have more options to best support Taylerann's specific educational needs and her love of art."

Visions In Education is exploring the possibility of expanding our charter school services to families in your area. Sharing your interest helps us determine whether pursuing authorization, staffing, and resources for this area would be viable.

Visions In Education is a WASC accredited free public charter school that currently serves Sacramento, San Joaquin, Solano, Contra Costa, Placer, Sutter, Amador, El Dorado and Yolo counties. Expansion into new service areas is subject to authorization and feasibility. To learn more about our existing school visit [viedu.org](http://viedu.org).
